

# FlowMeter

OPTIMIZE WATER USAGE WITH  
PRECISION

## FLOWMETER

Meet Doktor's latest innovation in sustainable irrigation management. FlowMeter accurately measures flow rates, provides detailed irrigation reports through an easy-to-use app, ensuring efficient water use.

Eco-friendly and versatile, it operates on solar power or a replaceable battery. Its hassle-free installation, universal compatibility, and reliable data logging, even offline, make it an essential addition to any irrigation system.

## BENEFITS

### ● ADVANCED MEASUREMENT

Accurately measures the flow rate during irrigation, ensuring efficient water use.

### ● SUSTAINABLE POWER OPTIONS

A low-power device that minimizes energy consumption powered by solar energy or a replaceable battery, catering to eco-friendly and versatile energy needs.

### ● HASSLE-FREE INSTALLATION

Easy to set up, making it a convenient addition to your irrigation system.

### ● UNIVERSAL COMPATIBILITY

Supports 2G networks for seamless communication. Connects effortlessly with any water meter equipped with a pulse output.

### ● INSIGHTFUL IRRIGATION REPORTS

Access detailed daily and weekly irrigation reports through our user-friendly app.

### ● UNINTERRUPTED MONITORING

Capable of logging data even in the absence of a network connection, ensuring continuous monitoring.
